

SAFETY IN 19 NUMB3RS

I.H.T.F.P.: Don't panic, everything's going according to plan! We just need to crack open this '19-sided safety box.

YOU: I don't think it's locked with a combo... let me try tinkering with the electrical connections.

I.H.T.F.P.: No time for the theatrical. Quick, blurt out the first six digits that come to mind!

YOU: Uh... Maroon! Faced! Figure! Square! Lives! Day-More!

I.H.T.F.P.: My gosh, is everyone losing their minds?! I said digits... unless you meant 528491?
