Jeopardy Night: Intro

*Welcome, **class of 2021**!*
This is the annual freshmen aquarium **puzzlehunt**!
It is recommended that you work in teams of **5 to 8 people**. Orientation groups work nicely!
There is a **reward** for the **first 3 teams** to solve all puzzles.
Your team will need **1 phone** that is capable of sending texts. Always use the same phone.
To begin, **text your team name to (619)-MIT-2021**.
Need help? My accomplices located at Front Desk (where you received this sheet) are available for hints.

Hello contestants!

You arrive at MIT to find that Jeopardy has become the spiciest, most popular Friday night activity! It's even more popular than memes, I would say.

Welcome to tonight's episode. I'm your host, Tim the Beaver. I thought about setting up podia for each of you to compete, but alas, I was told that we have neither the space nor the budget.

Instead, I've left the questions all around the aquarium! You'll have to explore a bit and puzzle them out, but I have confident in you. We have a wide array of categories for you tonight, each worth a specific number of points. However, each question is of equal value in the end. Hmm, how does that work?

You'll have to find out!

Your gracious host,

Tim the Beaver

There are 9 puzzles scattered throughout the aquarium. Good luck!
Submit answers by texting **(619)-MIT-2021** with the format: [puzzle number] [your solution]. For example, if your answer for puzzle 6 was fish, you would text **6 fish**.
(THIS PAGE IS NOT A PUZZLE)
